Maintenance Report September 2026

Custom Mowers are in RM and are about 1/3 rd done.

We have parked our unit for now to work on other things and leave mowing to the Mowers.

They did have a breakdown from hitting a Rock, the size of a 5-gallon pail. Now this rock was laying on the backslope of the road and appeared to have been rolled there from the field. Rock pocket was found in the field and grass was tall enough around it that the rock could not be seen. Damaged the mower blades and bolts.

Had to have Radio replaced in the Kubota tractor as it was getting very hot. Tractorland came out and took care of that.

Air Conditioning not working in John Deere Tractor as well. Had South Country out once before and they couldn't find any issues, but I used the other day and it did not work. Windows worked though.

Gravel Hauling is also taking place in the RM and is about 1/3rd done as well. Started out with 3 trucks but lost one of his guys and then the weather has not helped him out as well.

Jered and I have been working on cleaning around the Culverts and Signs in the RM and we are maybe a quarter done. Weather problem again.

Storage Shed is all up and ready to be backfilled inside so that the cement can be poured under the doors. Contractor has been lined up for this backfill job.

Administration/Maintenance Reports

181/26 Anderson: That Council accept the Administration & Maintenance reports as presented, for the month of August 2026.
